### DETAILED ACTION

1. Receipt is acknowledged of Applicant's Prior Art Statement, filed May 10, 2006.
2. Receipt is acknowledged of Applicant's Foreign Priority papers, filed May 10, 2006.
3. Receipt is acknowledged of Applicant's Preliminary Amendment, filed May 10, 2006.
4. Claims 1-4 are presented for examination.

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claim 1 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Price. Price discloses a grinding method for a work roll comprising all of the method steps set forth in Applicant's claims above. The grinding wheel is fed in a forward direction at a set velocity until contact with the work is made, and the forward velocity is then reduced.
7. Claims 2-4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Clark et al is cited to show a method of roll grinding comprising advancement of a grinding wheel at high speed toward the work, followed by reduction in the feed rate upon contact.
